

## LIVING WITH COLOR Exhibition

By: Donald J Ryker, Artist  
Expressionist Acrylics on Canvas

**For this exhibition I have brought together the Jungle, the Ocean, and Nature in three unique settings for you to explore.**

I am committed to creating artwork that inspires people every time they see it. I choose scenes in nature, still life, and especially animal images that create a moment when your eye connects with the vibrancy and color in the artwork. That moment creates a pause, a still point in your day, where your system can rest and enjoy.

### **Vote your Fav with a Selfie!**

*I would love to see a photo of you in front of your favorite piece of art!*

Please enjoy, tell your friends, and leave your feedback:
